Accountability Pillar Results Report for 2018-2019

November 1, 2019

WHERE THE WORLD OPENS UP

The Accountability Pillar surveys are administered annually and throughout the province, during the months of January to March to:

- Students in Grades 4, 7 and 10;
- Students in Grades 4 through 9 (in small schools);
- Parents of students in Grades 4, 7 and 10; and
- Teachers.

Students and teachers complete the surveys online at school while parents receive a copy of the survey that can be completed online, or by mail. Parent surveys are returned directly to Alberta Education.

Responses are collected and tabulated into a summary chart released in May and are updated in October to supplement updated academic achievement results through the Provincial Achievement Tests (grade 6 and 9) and the Diploma Examination results (Divisional and First Nations, Métis and Inuit specific). These achievement reports are provided in a separate summary report on our school's website.

This Accountability Pillar Results Report includes our school's overall summary and new results for all survey measures.

Approximate Survey Responses:

- 15 parents in our school responded to the survey. This is up from 5 last year. Unfortunately, low survey responses may not accurately represent our parent population.
- In Parkland School Division, approximately 459 parents responded to the survey. The five-year average for parent responses is approximately 406.
- In Parkland School Division: 2,560 Students (960 in grades 4-6, 700 in 7-9 and 900 in 10-12) responded; this included 48 students who responded from our school.
- In Parkland School Division, 457 teachers responded; this included 7 teachers from our school.

These are approximate numbers as not every respondent answers every question.

Areas Requiring Strategic Planning

- **C.1 Parental Involvement Measure History:** This measure saw a decrease at the school level by 18% and the school is 4.3% below the Province.
 - The transition to PowerSchool and online newsletters has been challenging over the years as not everyone has access to the internet.
- **A.7 Lifelong Learning Measure History:** This measure saw a decrease at the school level by 10.5% and the school is below the School Division and the Province by 11.1% and 21.9% respectively.
 - Historically this has been a challenge at Wabamun School. At no point in the last 5 years has Wabamun School equalled, or exceeded the province. Historically, we have not made the connection where students demonstrate the knowledge, skill and attributes necessary for lifelong learning.
